Welcome Message

Dear Delegates,

It gives us immense pleasure to extend a warm welcome to all delegates, faculties, and participants to the 1st ISBTI Odisha Chapter Academic Event, proudly organized by the Postgraduate Department of Transfusion Medicine, IMS & SUM Hospital, encompassing Campus I, Campus II, Campus III, and SUM Ultimate Medicare.

This prestigious event will be held on 29th & 30th May 2026 at Hotel Lemon Tree, Bharatpur, Bhubaneswar. The event marks a significant milestone in fostering academic excellence, collaboration, and advancements in the field of Transfusion Medicine.

We are delighted to bring together distinguished experts, researchers, clinicians, and students on a common platform to exchange knowledge, share innovative ideas, and discuss the latest developments and challenges in transfusion science and practice.

We are confident that this academic event will provide enriching scientific sessions, meaningful interactions, and valuable networking opportunities for all attendees.

We look forward to your active participation and hope you have a rewarding and memorable experience.

With warm regards,

Abstract Submission Guidelines

Abstracts for poster presentation of ISBTI Odisha state chapter will be accepted under the following topics:

Management, Organization, Hemovigilance, and Quality

These comprise abstracts on topics such as information technology, training and education, cost-effectiveness, management of the blood supply and utilization, quality control, hemovigilance and its effects, and social, legal, and ethical concerns pertaining to blood donation and transfusion as well as related topics.

Therapeutic Apheresis & Cellular Therapies

Abstracts about the various apheresis techniques, clinical applications, technical difficulties, and modifications- such as stem cell collections, storage, tissue banking, cord blood collection, processing, storage, and release of different products- as well as other relevant subjects are included in this category.

Blood Components

These cover abstracts on topics such as pathogen inactivation, plasma-derived products, blood processing, blood components, storage and release, post-production processing variations, novel blood products/components, and related subjects.

Blood Donors and Blood Donation

Abstracts on blood donor adverse events, blood donor health, blood collection (including apheresis), donor recruitment and retention, public health research on donors, and related subjects are among them.

Clinical Transfusion Practice, Patient Blood Management & Patient Safety

Abstracts about transfusion practice in various clinical scenarios, such as the obstetric and neonatal populations, the intensive care unit, massive hemorrhage, transfusion and transplants, patient blood management, and more, are included in these. Therapeutic apheresis, adverse transfusion events, patient safety improvement initiatives, clinical-lab interface initiatives, and related topics will also be covered.

Abstract Submission Guidelines

Immunohematology

These comprise abstracts on rare donors, platelet and granulocyte immunology, fetal and maternal immunology, including the clinical implications of all of the aforementioned subjects, and red cell immunohematology, including both molecular and serological aspects.

Transfusion Transmitted Infectious Diseases

These comprise abstracts about new pathogens and other transfusion-related pathogens, screening techniques for TTI involving bacteria and parasites, approaches to address the problem of blood safety, and associated subjects.

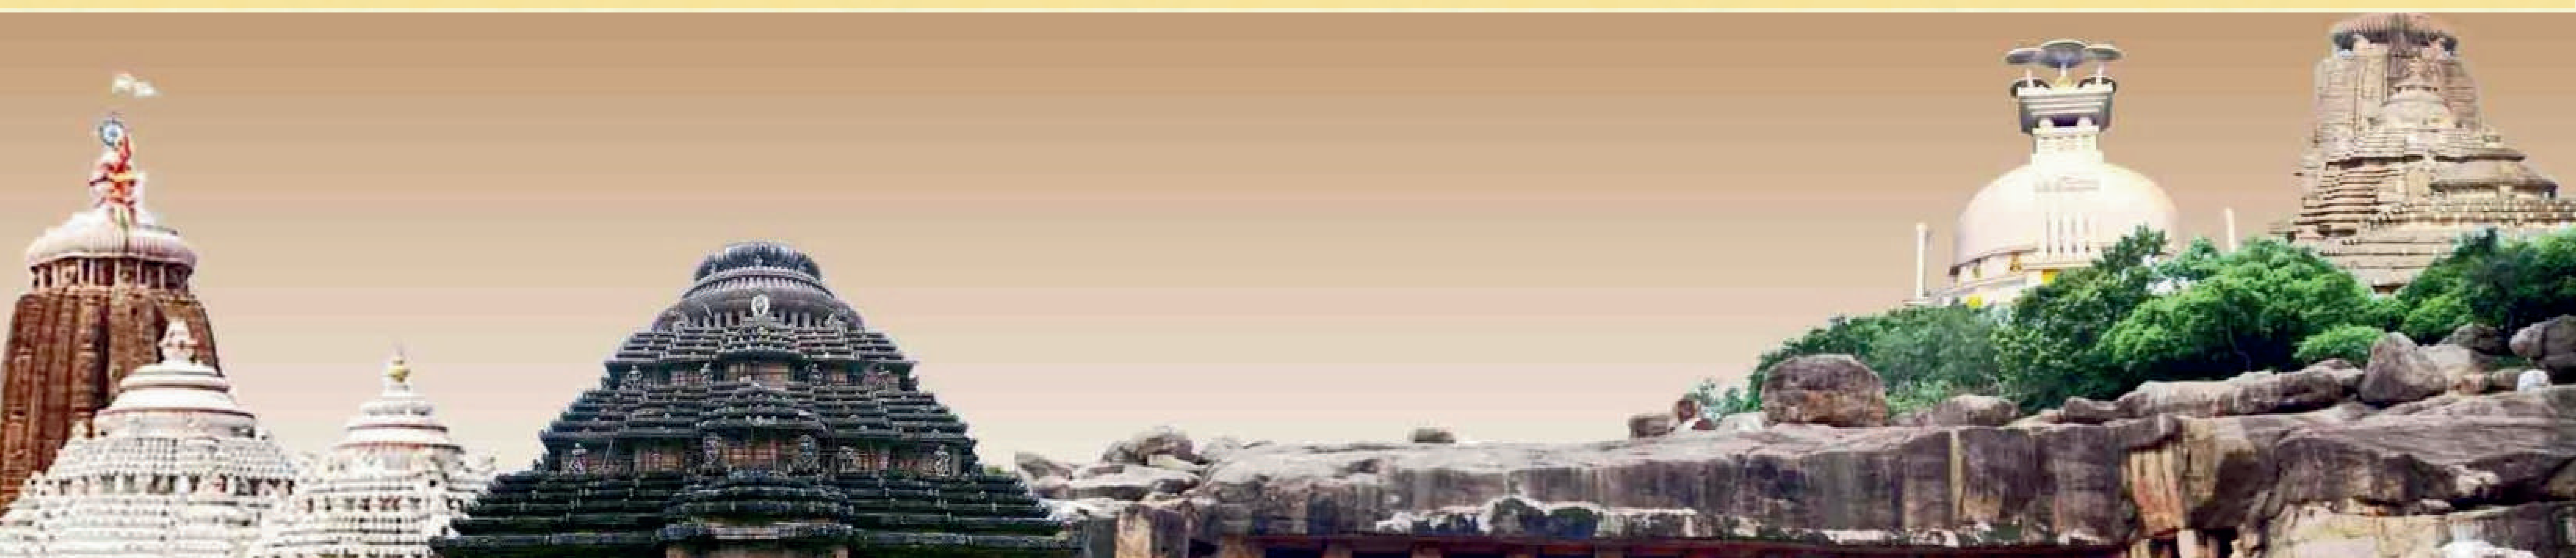

Transplant Immunology and Immunogenetics

These cover subjects like HLA-related solid organ and stem cell transplants, the function of HLA in transfusion medicine, and HLA's role in various contexts like drug hypersensitivity, disease associations, and other related subjects.
